In re: Florida Power & Light Company's request for confidential classification of document request responses and portions of audit staff's draft report entitled Coal Combustion Residual Storage and Disposal Processes of the Florida Electric Industry.

DOCKET NO. 110322-EI
ORDER NO. PSC-13-0388-CFO-EI
ISSUED: August 20, 2013

ORDER GRANTING FLORIDA POWER & LIGHT COMPANY'S
FIRST REQUEST FOR EXTENSION OF CONFIDENTIAL CLASSIFICATION
OF DOCUMENT NO. 08740-11 (CROSS REF. 00055-12)

On August 13, 2013, pursuant to section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Florida Power & Light Company (FPL or company) filed its First Request for Extension of Confidential Classification of certain information included in the "Review of Coal Combustion Residual Storage and Disposal Processes of the Florida Electric Industry" (Report) prepared by the Commission's Office of Auditing and Performance Analysis, and for information included in FPL's data responses that the Commission staff reviewed in preparing the Report (Data Responses). The materials subject to this request are contained in Document No. 08740-11 (cross ref. 00055-12).

FPL originally requested confidential classification of the materials subject to this request on December 2, 2011. The Commission granted that request by Order No. PSC-12-0037-CFO-EI, issued January 24, 2012, upon finding that these materials satisfied the criteria set forth in section 366.093(3), F.S., for classification as proprietary confidential business information. The Commission ordered that the materials be protected from disclosure for a period of 18 months.

FPL states that nothing has changed since the issuance of Order No. PSC-12-0037-CFO-EI to render the confidential information public, and thus requests that all of the information contained in Document No. 08740-11 (cross ref. 00055-12) remain confidential for at least an additional 18-month period, as provided in section 366.093(4), F.S., and that the information be returned as soon as it is no longer necessary for the Commission to conduct its business.

FPL adopts and incorporates by reference its December 2, 2011 request for confidential classification, which includes four exhibits. Exhibit A contains a sealed, unredacted copy of all the pages of the Report and Data Responses for which continued confidential treatment is sought. In Exhibit A, the information asserted to be confidential is highlighted. Exhibit B contains a redacted version of the information for which continued confidential treatment is sought. In Exhibit B, the information asserted to be confidential is blocked out by opaque marker or other means. Exhibit C contains FPL's justifications for the confidential treatment of the above-described information, and is attached to this Order as Attachment A. FPL included a First Revised Exhibit D, which consists of an affidavit of its Production Manager signed and dated August 13, 2013, in support of this request.

Section 366.093(1), F.S., provides that “any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from [the Public Records Act].” Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company’s ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3)(c), (d), and (e), F.S., provides that proprietary confidential business information includes, but is not limited to “[s]ecurity measures, systems, or procedures,” “[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliate to contract for goods or services on favorable terms,” and “[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.”

FPL contends that the information falls within these categories and thus constitutes proprietary confidential business information entitled to continued protection under section 366.093, F.S., and Rule 25-22.006, F.A.C. FPL states that this information is intended to be and is treated by FPL as private and has not been publicly disclosed.

Upon review, it appears that the above-referenced information satisfies the criteria set forth in section 366.093(3), F.S., for classification as proprietary confidential business information and shall be treated as confidential. The information constitutes “[s]ecurity measures, systems, or procedures,” “[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliate to contract for goods or services on favorable terms,” and “[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.” Thus, this information is granted continued confidential classification.

Pursuant to section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from section 119.07(1), F.S., unless FPL or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is

ORDERED by Commissioner Lisa Polak Edgar, as Prehearing Officer, that Florida Power & Light Company’s First Request for Extension of Confidential Classification of Document No. 08740-11 (cross ref. 00055-12) is granted. It is further
