FROM: Network Operator Services, Inc.

RE: Publicly Published Price Schedules

In response to your letter dated August 2, 2013, Network Operator Services, Inc. does not provide local exchange services in the state of Florida. NOS holds a certificate of authority but has never entered this market in Florida and has no plans to at this time. Therefore no price schedules are available as none exist.

Should you have any questions, I can be reached at osbill@centrisinfo.com.

Susan P. Freeman

Director, Billing Operations
