DOCKET NO. 130001-EI
ORDER NO. PSC-13-0537-CFO-EI
ISSUED: October 29, 2013

ORDER GRANTING DUKE ENERGY FLORIDA, INC.'S REQUEST FOR CONFIDENTIAL
CLASSIFICATION (DOCUMENT NO. 04810-13)

On August 16, 2013, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Duke Energy Florida, Inc. (DEF) filed a request for confidential classification (Request) of information provided in Attachments A and B to DEF's Hedging Report for the period January 2013 through July 2013 (Report). (Document No. 04810-13). This request was filed in Docket No. 130001-EI.

Section 366.093(1), F.S., provides that "any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from Section 119.07(1) [the Public Records Act]." Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Paragraphs (3) d), and (e) of Section 366.093 F.S., provide that proprietary confidential business information includes, but is not limited to "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms;" and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information."

DEF contends that the information provided in Attachments A and B to its Report for the period January 2013 through July 2013, (Document No. 04810-13), as more specifically described in Exhibit C to DEF's Request, falls within these categories and constitutes proprietary confidential business information entitled to protection under Section 366.093, F.S., and Rule 25-22.006, F.A.C. DEF states that this information is intended to be and is treated by PEF as private and has not been publicly disclosed.

DEF asserts that the information in the Report relates to the actual hedging data for January 2013 through July 2013, such as volumes, hedging costs, and hedging gains/losses, the disclosure of which would impair the efforts of DEF or its affiliates to negotiate fuel supply contracts on favorable terms. Furthermore, DEF asserts, the information relates to the competitive interests of DEF and its fuel suppliers, the disclosure of which would impair their competitive businesses. DEF contends that such information constitutes "proprietary confidential business information" which is exempt from disclosure under the Public Records Act pursuant to Sections 366.093(1) and (3)(d), (e), F.S.

Time Period For Confidential Classification

DEF requests confidential classification for this information for a period of 18 months. According to Section 366.093(4), F.S., confidential classification may extend for 18 months from the issuance of an Order granting confidential classification.

Ruling

Upon review, it appears the above-referenced information satisfies the criteria set forth in Sections 366.093(3)(d) and (e), F.S., for classification as proprietary confidential business information. The information constitutes “[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms” and “[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.” Thus, the information identified in Document No. 04810-13 shall be granted confidential classification.

Section 366.093(4), F.S., provides that any finding by the Commission that records contain proprietary confidential business information shall be effective for a period not to exceed 18 months. Accordingly, the information identified in Document No. 04810-13 shall be granted confidential classification for a period of eighteen months from the issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless DEF or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

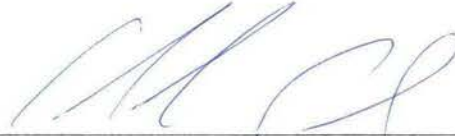

Based on the foregoing, it is

ORDERED by Commissioner Eduardo E. Balbis, as Prehearing Officer, that Progress Energy Florida, Inc.’s Request for Confidential Classification of Document No. 04810-13 is granted. It is further

ORDERED that the information in Document No. 04810-13 for which confidential classification has been granted shall remain protected from disclosure for a period of 18 months from the date of issuance of this Order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Eduardo E. Balbis, as Prehearing Officer, this 29th day
of October, 2013.
