**ANNUALIZED REVENUE WORKSHEET**

Have the rates charged for customer services changed since January 1, 2012?

- ( ) If no, the utility should use actual revenues. This form may be disregarded.
- (X) If yes, the utility must annualize its revenues. Read the remainder of this form.

Annualizing calculates the revenues the utility would have earned based upon 2012 customer consumption at the most current rates in effect. To complete this calculation, the utility will need consumption data for 2012 to apply to the existing rate schedule. Below is a sample format which may be used.

CALCULATION OF ANNUALIZED REVENUES\*  
 Consumption Data for 2012

	Number of Bill/Gal. Sold	X	Current Rates	Annualized Revenues

2" meters				
3" meters				
4" meters				
6" meters				
Gallons Sold				
Total Annualized Revenues for 2012				\$ 78,139

\* Annualized revenues must be calculated separately if the utility consists of both a water system and a wastewater system. This form is designed specifically for utilities using a base facility charge rate structure. If annualized revenues must be calculated and further assistance is needed, contact the Commission Staff at (850)413-6900.

**AFFIRMATION**

I, Jack E. Mason II, hereby affirm that the figures and calculations upon which the change in rates is based are accurate and that the change will not cause Sunny Shores Water Co. to exceed the range of its last

I, the undersigned/officer of the above-named utility, have read the foregoing and declare that, to the best of my knowledge and belief, the information contained in this application is true and correct.

Pursuant to Section 367.081 (4)(a), Florida Statutes, water and wastewater utilities are permitted to adjust, the rates and charges to its customers without those customers bearing the additional expense of a public hearing.
