DOCKET NO. 130001-EI
ORDER NO. PSC-13-0562-CFO-EI
ISSUED: October 30, 2013

ORDER GRANTING DUKE ENERGY FLORIDA, INC.'S REQUEST FOR
CONFIDENTIALITY (DOCUMENT NO. 05863-13)

On October 1, 2013, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Duke Energy Florida, Inc. (DEF) requested confidential classification (Request) to portions of its response to White Springs Agricultural Chemicals, Inc. d/b/a PCS Phosphate's (White Springs) First Request for Production of Documents No. 1 (Document No. 05863-13). This request was filed in Docket No. 130001-EI.

Section 366.093(1), F.S., provides that "any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from Section 119.07(1) [the Public Records Act]." Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Sections (3)(d) and (e) of Section 366.093, F.S., provide that proprietary confidential business information includes, but is not limited to "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms" and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information."

DEF contends that the information for which it requests confidential classification, as more specifically described by the justification table in Exhibit C of its request, falls within the requirements of Section 366.093(3), F.S., and, thus, is entitled to confidential classification. Specifically, DEF contends that the information relates to DEF's projected load information and projected marginal fuel costs at various load levels. DEF argues that this information relates to the competitive interests of DEF and its fuel suppliers, the disclosure of which would impair its competitive business. DEF argues that the disclosure of this information would impair DEF's ability to obtain competitive purchase/sale agreements that provide economic value to both DEF and its customers. DEF states that the information and contracts sought to be protected are intended to be and are treated as confidential by DEF and have not been disclosed to the public.

Time Period For Confidential Classification

DEF requests confidential classification for this information for a period of 18 months. According to Section 366.093(4), F.S., confidential classification may only extend for 18 months from the issuance of an Order granting confidential classification unless “the Commission finds, for good cause, that the protection from disclosure shall be for a specified longer period.”

Ruling

Upon review, it appears the above-referenced information satisfies the criteria set forth in Section 366.093(3), F.S., for classification as proprietary confidential business information. The information constitutes “[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms” and “[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.” Thus, the information identified in Document No. 05863-13 shall be granted confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless DEF or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is

ORDERED by Commissioner Eduardo E. Balbis, as Prehearing Officer, that Duke Energy Florida, Inc.’s Request for Confidential Classification of Document No. 05863-13 is granted. It is further

ORDERED that the information in Document No. 05863-13 for which confidential classification has been granted shall remain protected from disclosure for a period of 18 months from the date of issuance of this Order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Eduardo E. Balbis, as Prehearing Officer, this 30th day
of October, 2013.
