RE: Docket No. 100471-SU
S&L Utilities, Inc.
Ocala, Florida

Dear Commission Clerk:

With reference to the above captioned Docket No. 100471-SU, S&L Utilities, Inc., I ask that the docket be closed at this time. Yesterday, after a conference call between Lydia Roberts, Shannon Hudson, Stan Rieger, Clark Yandle and myself, I feel it is time to close the docket and not pursue Phase III.

Attached is copy of email from Wayne Bryant, who is my Utility Operator. We feel the blowers are operating well and are properly maintained. The plant has not had any odors and everything is in satisfactory condition. I feel it is unnecessary to replace fine working blowers.

I've spent \$30,000, plus interest, for cleaning the pond. It looks so good. And, the county cleaned up their lot which is to our immediate South. I'm proud of the accomplishment.

I wish to thank PSC for our first staff assisted rate increases. Your staff put in many hours and I thank them for walking us through Phase I and Phase II. I didn't speak with Mr. Robert Simpson yesterday and would like to thank him as well.

Thank you for your consideration in closing our docket.

Sincerely,

Teresa Fletcher

Cc: Mr. Clark Yandle

Subj: Sleepy Hollow Blowers

To Whom it My Concern,

Since Utility Operators Inc. Started Operating the Plant at Sleepy Hollow we have observed that the blowers that are now in operation with proper maintenance have been operating at peek capacity and with continued proper maintenance it is our Opinion they should last for the forsaken future.

Thank You, Wayne Bryant / Utility Operators, Inc.
