Re: Review of the 2014 Ten-Year Site Plans for Florida's Electric Utilities

Dear Mr. McDaniel:

Pursuant to Section 186.801, Florida Statutes, the Florida Public Service Commission (Commission) is responsible for reviewing and classifying each electric utility's Ten-Year Site Plan as "suitable" or "unsuitable." As part of the annual review in accordance with Rule 25-22.071, Florida Administrative Code, the Commission must provide a copy of the relevant Ten-Year Site Plans and solicit the views of appropriate state, regional, and local agencies. To this end, the Commission has made available on its website electronic copies of the 2014 Ten-Year Site Plans for all the Florida electric utilities at the following link:

<http://www.psc.state.fl.us/utilities/electricgas/10yrsiteplans.aspx>

Below is a list of those electric utilities that have identified preferred or potential plant sites in your jurisdiction. Please review these Ten-Year Site Plans and provide comments, along with a brief summary if possible, on their suitability as planning documents. Please note that these plans are not designed to give information about proposed facilities in such detail as would be required for a development permit or other formal process.

Relevant Ten-Year Site Plans

- Florida Power & Light Company (FPL)
- Duke Energy Florida (DEF)
- Tampa Electric Company (TECO)
- Gulf Power Company (GULF)
- Florida Municipal Power Agency (FMPA)
- Gainesville Regional Utilities (GRU)
- JEA
- Lakeland Electric (LAK)
- Orlando Utilities Commission (OUC)
- Seminole Electric Cooperative (SEC)
- City of Tallahassee Utilities (TAL)

Executive Director
South Florida Regional Planning Council
3440 Hollywood Blvd., Suite 140
Hollywood, FL 33021

Re: Review of the 2014 Ten-Year Site Plans for Florida's Electric Utilities

Dear Mr. Murley:

Pursuant to Section 186.801, Florida Statutes, the Florida Public Service Commission (Commission) is responsible for reviewing and classifying each electric utility's Ten-Year Site Plan as "suitable" or "unsuitable." As part of the annual review in accordance with Rule 25-22.071, Florida Administrative Code, the Commission must provide a copy of the relevant Ten-Year Site Plans and solicit the views of appropriate state, regional, and local agencies. To this end, the Commission has made available on its website electronic copies of the 2014 Ten-Year Site Plans for all the Florida electric utilities at the following link:

<http://www.psc.state.fl.us/utilities/electricgas/10yrsiteplans.aspx>

Below is a list of those electric utilities that have identified preferred or potential plant sites in your jurisdiction. Please review these Ten-Year Site Plans and provide comments, along with a brief summary if possible, on their suitability as planning documents. Please note that these plans are not designed to give information about proposed facilities in such detail as would be required for a development permit or other formal process.

Re: Review of the 2014 Ten-Year Site Plans for Florida's Electric Utilities

Dear Mr. Crosby:

Pursuant to Section 186.801, Florida Statutes, the Florida Public Service Commission (Commission) is responsible for reviewing and classifying each electric utility's Ten-Year Site Plan as "suitable" or "unsuitable." As part of the annual review in accordance with Rule 25-22.071, Florida Administrative Code, the Commission must provide a copy of the relevant Ten-Year Site Plans and solicit the views of appropriate state, regional, and local agencies. To this end, the Commission has made available on its website electronic copies of the 2014 Ten-Year Site Plans for all the Florida electric utilities at the following link:

<http://www.psc.state.fl.us/utilities/electricgas/10yrsiteplans.aspx>

Below is a list of those electric utilities that have identified preferred or potential plant sites in your jurisdiction. Please review these Ten-Year Site Plans and provide comments, along with a brief summary if possible, on their suitability as planning documents. Please note that these plans are not designed to give information about proposed facilities in such detail as would be required for a development permit or other formal process.
