In re: Application for rate increase by Florida
Public Utilities Company.

DOCKET NO. 140025-EI
ORDER NO. PSC-14-0388-CFO-EI
ISSUED: July 24, 2014

ORDER GRANTING FLORIDA PUBLIC UTILITIES COMPANY'S
REQUEST FOR CONFIDENTIAL CLASSIFICATION AND MOTION
FOR TEMPORARY PROTECTIVE ORDER (DOCUMENT NO. 02926-14)

On June 11, 2014, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Florida Public Utilities Company (FPUC) filed its request (Request) for specified confidential classification of its responses to the Florida Public Service Commission (Commission) Staff's First Set of Interrogatories, Nos. 19 and 21, as well as its responses to Commission Staff's First Request for Production of Documents, Nos. 4 and 7 (Document No. 02926-14).

Request for Confidential Classification

FPUC contends that its responses to Commission Staff's First Set of Interrogatories, Nos. 19 and 21, as well as its responses to Commission Staff's First Request for Production of Documents, Nos. 4 and 7, constitute proprietary confidential business information entitled to protection under Section 366.093, F.S., and Rule 25-22.006, F.A.C.

FPUC's response to Commission Staff's First Set of Interrogatories, No. 19, consists of a list of new customer service positions added by year. FPUC's response to Commission Staff's First Set of Interrogatories, No. 21, consists of the salary and benefit adjustment amounts for two assistant operations managers who were promoted to operations managers in 2014. FPUC's responses to Commission Staff's First Request for Production of Documents, Nos. 4(a) and (b), consist of the American Gas Association's 2012 and 2013 Compensation Surveys, respectively, which are subject to a non-disclosure agreement between the American Gas Association and FPUC. FPUC's response to Commission Staff's First Request for Production of Documents, Nos. 4(c) and 4(d), consist of 2012 and 2013 CompData Surveys, respectively, prepared by FPUC's consultant, Dolan Technologies Corporation. FPUC's response to Commission Staff's First Request for Production of Documents, No. 7(a), consists of a job grid as of January 13, 2014, for FPUC listing positions and salaries. FPUC's response to Commission Staff's First Request for Production of Documents, Nos. 7(b), consists of a list of company-wide positions and salaries for all of Chesapeake Utilities' various utility subsidiaries including FPUC. FPUC argues that the release of this information would be detrimental as it would impair its ability to attract and retain qualified personnel at the lowest cost to the utility and its ratepayers. Additionally, FPUC notes that disclosure of the information would also violate non-disclosure agreements with the American Gas Association and its consultant Dolan Technologies Corporation and would impair the competitive interests of both of those entities. FPUC further

contends that all of the information produced as identified above has not been disclosed to the public and is treated by FPUC as confidential and proprietary business information.

Ruling

Section 366.093(1), F.S., provides that records the Commission has found to contain proprietary confidential business information shall be kept confidential and shall be exempt from Chapter 119, F.S. Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and that has not been voluntarily disclosed to the public. Section 366.093(3), F.S., provides that proprietary confidential business information includes, but is not limited to:

(d) Information concerning bids and other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods and services on favorable terms.

(e) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.

Upon review, it appears the above-referenced information satisfies the criteria set forth in Sections 366.093(3)(d) and (e), F.S., for classification as proprietary confidential business information. The information at issue appears to contain salary and contractual information, the disclosure of which would impair the utility's ability to negotiate the lowest and best terms possible with current and potential employees to the detriment of its ratepayers. Thus, the information identified in Document No. 02926-14, as set forth herein, shall be granted confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of up to 18 months from the date of the issuance of this Order. At the conclusion of this period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless FPUC or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Motion for Temporary Protective Order

FPUC also seeks protection of the documents as provided in Section 366.093(2), F.S., and Rule 25-22.006(6), F.A.C., while the material is in the possession of the Office of Public Counsel (OPC). Section 366.093(2), F.S., directs that all records produced pursuant to a discovery request for which proprietary confidential status is requested shall be treated by any party subject to the public records law as confidential and exempt from the public records law, Section 119.07(1), F.S. Rule 25-22.006(6), F.A.C., codifies the Commission's policy regarding the protection of confidential information from public disclosure during the discovery process in

a manner that is not overly burdensome to both parties. Rule 25-22.006(6)(a), F.A.C., in pertinent part, states:

In any formal proceeding before the Commission, any utility or other person may request a protective order protecting proprietary confidential business information from discovery. Upon a showing by a utility or other person and a finding by the Commission that the material is entitled to protection, the Commission shall enter a protective order limiting discovery in the manner provided for in Rule 1.280, Florida Rules of Civil Procedure.

In addition, Rule 25-22.006(6)(c), F.A.C., states that if a party allows OPC to inspect or take possession of utility information, then that “utility may request a temporary protective order exempting the information from section 119.07(1), F.S.”

Upon consideration of FPUC’s assertions of the confidential nature of the information contained in its response to Commission Staff’s First Set of Interrogatories, Nos. 19 and 21, as well as its responses to Commission Staff’s First Request for Production of Documents, Nos. 4 and 7, FPUC’s Motion for Temporary Protective Order is hereby granted. As a result, this information shall be protected from disclosure pursuant to Rule 25-22.006(6)(c), F.A.C.

Based on the foregoing, it is hereby

ORDERED by Commissioner Julie I. Brown as Prehearing Officer, that Florida Public Utilities Company’s Request for Confidential Classification of the materials contained in Document No. 02926-14 is granted, as set forth herein. It is further

ORDERED that the information in Document No. 02926-14 for which confidential classification has been granted, shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. It is further

ORDERED that Florida Public Utilities Company’s Motion for Temporary Protective Order regarding the materials contained in Document No. 02926-14 is granted. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Julie I. Brown, as Prehearing Officer, this 24th day of
July, 2014.

This notice should not be construed to mean all requests for an administrative hearing or judicial review will be granted or result in the relief sought.

Mediation may be available on a case-by-case basis. If mediation is conducted, it does not affect a substantially interested person's right to a hearing.

Any party adversely affected by this order, which is preliminary, procedural or intermediate in nature, may request: (1) reconsideration within 10 days pursuant to Rule 25-22.0376, Florida Administrative Code; or (2) judicial review by the Florida Supreme Court, in the case of an electric, gas or telephone utility, or the First District Court of Appeal, in the case of a water or wastewater utility.
