Orlando, FL 33801

Re: Agreements for the Purchase of As-Available or Parallel Operation with a Qualifying Facility between Waste to Energy Partners, LLC and Progress Energy Florida dated November 17, 2011 for facilities in Marion and Orange Counties (the "Agreements")

Dear Mr. Fowler,

I have attempted to email you several times this year to get an update on Waste to Energy's Marion County and Orange County projects with Duke Energy and I have not received any response. I hope that you and these projects are doing well but the lack of response has led me to wonder if the projects are still active.

In the event that I have not heard anything to the contrary from you by December 31, 2013, Duke Energy will consider the Agreements to be mutually terminated.

Sincerely,

A handwritten signature in blue ink, appearing to read "David Gammon", with a long horizontal flourish extending to the right.

David Gammon
