Re: Docket No. 140119-TP
FCC Reporting Requirements and Certifications
47 C.F.R. § 54.304(d)

Dear Ms. Cole:

TDS Telecom respectfully provides you with an amended set of ICC-CAF forms that will be filed with the FCC and USAC on Friday, September 19, 2014. The purpose of this revision of the ICC-CAF data collection is a result of the FCC granting TDS ILECs permission (FCC Order 14-121, August 7, 2014) to include State Terminating Access revenues from Halo in the Base Period Revenues. TDS has met each of the 5 conditions laid out in the FCC 14-121 Order. This amended change only impacts the Eligible Recovery amounts and ICC-CAF amounts. ARC rates were not impacted. We have also enclosed various certifications as required by the FCC Order.

TDS is forwarding a copy of this filing as required by 47 C.F.R. § 54.304(d). This filing contains confidential information that must not be disclosed to other carriers or the public under the Freedom of Information Act or any other federal or state rule or law. For example, the filing includes detailed financial information including projected minutes-of-use, demand, revenue, and rate design information that is known only to TDS and not available to any public source. If this highly sensitive and confidential information is disclosed to any carriers or the public, that disclosure would cause substantial competitive harm to TDS. A redacted version of this filing is also included so that a version may be entered on the public record should that be required.

Feel free to contact me if you have any questions concerning the above-referenced enclosures.

Sincerely,

A handwritten signature in black ink that reads "Jeff Jung".
