COMMISSION
CLERK

Re: Docket No. 140179-EU - Joint petition for approval of amendment to territorial agreement between the City of Tallahassee and Talquin Electric Cooperative, Inc.

Dear Mr. Villafrate:

By this letter, Talquin Electric Cooperative, Inc. and the City of Tallahassee respond to the Commission staff data requests dated September 24, 2014.

1. Of the facilities transfers listed in Exhibits D and E of the existing agreement, please provide an accounting of how many transfers were and were not completed.

To date, the 1989, 1990, 1991 and 1992 transfer units shown in Exhibit D have been transferred from Talquin to the City. There have been additional transfers from Talquin to the City of portions of the 1993, 2000, 2001, and 2002 transfer units. There have been no transfers of City facilities to Talquin.

2. Of the facilities transfers listed in Exhibits D and E of the existing agreement that were not completed, please explain why these facilities were not transferred as agreed to.

With respect to the transfer units from Talquin to the City, the delay in the transfers has centered around the valuation for the transfer units. The current agreement does not have a clear valuation process that has resulted in differences in approach with respect to how the transfer units were valued. The amendment addresses this issue.

With respect to the transfer units from the City to Talquin, Talquin has not made application for these transfer units.

3. Please provide a listing, similar to that in the existing agreement, of facilities to be transferred under the proposed amendment.

The pending amendment request includes modifications to the original exhibits "D" and "E" which were intended to identify the specific facilities

COM _____
AFD _____
APA _____
ECO 3
ENG _____
GCL 2
IDM _____
TEL _____
CLK _____

to be transferred between the City and Talquin. The original exhibits used street names and unique utility identifiers to account for the facilities that were to be transferred as part of the agreement. The proposed amended exhibits take slightly different approach by depicting the location of the facilities that the original agreement intended to be transferred. This was done for a couple of reasons, i) several of the facilities (i.e. utility poles, etc.) have been modified over time as part of the maintenance of the facilities and ii) the naming convention used to identify some of the Talquin facilities has changed. The information that has been provided in response to question #3 of your data request has been put in a format similar to that of the original agreement as requested. However, the unique identifiers may not mimic those of the original exhibits.

4. What progress has been made on the transfers scheduled for 2014?

Both the City and Talquin have been working on the engineering and integration work required to facilitate the 2014 transfers from Talquin to the City with the goal to execute the transfers once the amendment is approved by the Public Service Commission.

5. The second paragraph of the amendment to the existing agreement, marked as Exhibit A, states the amendment is "to provide for modifications to . . . CUSTOMER transfer . . ." However, paragraph 15 of the petition, states that no customer accounts will be transferred as a result of the amendment. Please explain the apparently conflicting statements.

The language quoted from the second unnumbered paragraph on page 1 of Exhibit A (the Amendment) refers not to the Amendment but to the existing territorial agreement. Under the existing agreement, customers will be transferred: (1) on a voluntary basis for existing customers or (2) as ownership changes for the service location. The transfer of customer provisions in the existing territorial Agreement continue in effect and are not amended by the Amendment.

The proposed Amendment only modifies the asset valuation, asset transfer schedule and the details for the solicitation provisions for voluntary customer transfers. The Amendment does not modify when and how customer accounts are transferred between the City and Talquin. There are no changes with respect to customer transfers except for the details about the solicitation of voluntary customer transfers.
