Ron,

This is what Colleen has been working on and sent as the back-up for the Oakwood billing issue.

Attached is the Transaction Summary for the meters at Oakwood within the Brevard System.

Oct. Usage: 820.0 (we were NOT billed for this usage, only a base charge and even that was billed incorrectly)

Nov. Usage: 2564.7, but should've been 1757.9 (we were billed for Usage incorrectly due to a misread from the master meter, on top of them catching up October's Usage that they didn't bill the month before)

Total credit applied to our account as of this morning: (\$8,974.90)

Colleen advised that they applied that to the Dec. billing for Oakwood and will still leave a credit balance of (\$2,945.96) to be used against January's billing. I have requested a Credit Memo so that we may apply that on our end in QB.

I also spoke with Pam at the Mims Customer Service Office again this morning and going forward we will get two bills for Oakwood, one per meter. After researching the issue, Pam stated they are unable to put both meters on the same invoice. Rather than depend on her to remember to send this type of report separate each month, I felt a second bill, one for each meter, would work-out best for both parties and asked her to execute that procedure going forward.

Thank You,

Amy N. Williams

Amy

Attached is my spread sheet explaining how you are billed with both meters and how they get added together for one bill. I also have attached a copy of your water account to show the credits that we spoke on the phone. I hope this helps you in explaining this to your company.

Thanks again,

Colleen
