Dorothy,

Last Wednesday, when Beth was out of the office, a filing was made and placed in 110013 and 140029. I asked you to remove it from 110013 and just keep it in 140029, which you did.

After review, Beth believes it should be in both dockets.

Could you please place it back in 110013 so both dockets are covered.

Sorry for the confusion.
