Ms. Adina Lehrman  
[inkadina@bellsouth.net](mailto:inkadina@bellsouth.net)

Dear Ms. Lehrman:

The Governor's office forwarded a copy of your email regarding Florida Power & Light Company (FPL) to the Florida Public Service Commission (PSC). The PSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the PSC. The PSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to respond to you.

We will add your comment to the correspondence side of Docket No. 140001-EI regarding FPL's fuel and purchased power cost recovery clause with generating performance incentive factor.

If you have any questions or concerns please call Ellen Plendl at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Randy Roland  
Regulatory Program Administrator  
Florida Public Service Commission

**Subject:** RE: FPL Exploration

Thank you for contacting Governor Rick Scott. The Governor appreciates your concerns about Florida's energy needs and asked that I respond on his behalf.

Thank you for contacting Governor Rick Scott. Governor Scott wants to know how Floridians feel about the many critical issues we face and appreciates you taking the time to share your views with him. The Governor asked that I respond on his behalf.

As a result of the 2011 Legislative session, the responsibilities of the State Energy Office were transferred from the Office of the Governor to the Florida Department of Agriculture and Consumer Services. The

Office of Energy is housed within the Department of Agriculture and Consumer Services and is the primary organization for state energy and climate change programs and policies. The office holds a variety of responsibilities, including administering financial incentive programs; administering the provisions of the Florida Energy and Climate Protection Act; representing Florida in the Southern States Energy Compact; performing or coordinating the functions of any federal energy programs delegated to the state; and providing recommendations to the Governor and the Legislature.

To assist you, I forwarded your concerns to the Florida Office of Energy. If you would like to contact the department directly, please use the contact information provided below.

Any changes to state laws require action by the Florida Legislature. You can influence legislation by contacting your local legislative delegation. To contact your legislators and track bills as they proceed through the legislative process, please visit [www.leg.state.fl.us](http://www.leg.state.fl.us).

Thank you again for taking the time to contact Governor Scott.

Sincerely,

Martha Lynn

**To:** Governor Rick Scott

**Subject:** FPL Exploration

Dear Governor Scott,

I am a St. Lucie County voter and I want you to know that I don't want Florida Power and Light to do exploration for natural gas in Florida, and I do not want them to spend my money on that endeavor. Furthermore, I do not want fracking to take place in Florida at all no matter what the perceived benefit.

I would urge FPL in order to better serve its shareholders and its customers to explore and invest heavily in sustainable clean energy options that exist in abundance in Florida. Solar and wave energy being two very obvious and abundant energy sources.

Sincerely,

Adina Lehrman
