**To:** Commissioner Correspondence  
**Subject:** Customer Phone Call

This voicemail was received on our main line over the holidays. The person indicated that they were calling from zip code 32136 but did not state their name. She asked that the Commission say no to the smart meters docket 130223-EI and to the proposed FPL inclusion of the fracking investment in the rate base, Docket No. 140001-EI. Please place this e-mail in docket correspondence consumers and their representatives in both of the above-mentioned dockets.

Thank you,
