Re: Docket No. 140060-WS - Application for increase in Water and Wastewater rates in Seminole County by Sanlando Utilities Corporation. Our File No. 30057.214

Dear Ms. Stauffer:

An existing rubber-tired backhoe owned and used by Sanlando Utilities is well past the end of its service life, and is now out of service. The backhoe is not worth repairing due to the cost to do so compared to the current salvage value of the hoe. The absence of a workable backhoe creates a void in the Utility's ability to respond quickly when leaks are discovered or there is a need to make repairs in its distribution and collection systems.

As a result, the Utility obtained three bids for a replacement backhoe, copies of which are enclosed. The Utility has accepted the lowest bid as indicated by the Utility's acceptance of that bid. The backhoe is scheduled to be delivered on Friday, February 13, 2015, and the Utility will provide documentation of receipt at payment after delivery. We believe this capital cost should be included in the current rate case.

If you or the Staff have any questions, please feel free to contact me.

Very truly yours,

A handwritten signature in blue ink that reads "Martin S. Friedman". The signature is fluid and cursive, written over the typed name.
