Issue/Comment:

Chairman & Members: WE THE RATE-PAYING PEOPLE would like to know why utilities are allowed to be owned by holding companies. Answer: Holding companies generate excessive profits by imposing fees, surcharges and any other expense they can think of on the owned utility where it is passed through to the consumer in the form of higher rates. WE THE RATE-PAYING PEOPLE demand this immoral strategy be terminated at once. WE THE RATE-PAYING PEOPLE are still waiting for a refund of the Duke Energy Nuclear Plant Funding Scam be fully refunded with the highest interest allowed by law. Said interest should be blocked from being passed through to the ratepayers. WE THE RATE-PAYING PEOPLE are watching and demanding your immediate action on this long standing and delayed issue.
