**Re: Docket No. 150001-EI**

Dear Ms. Stauffer:

I enclose for electronic filing in the above docket Florida Power & Light Company's ("FPL") Petition for Mid-Course Correction to its 2015 Fuel Adjustment Factors, with attached Appendix A that supports FPL's proposed reduction to the 2015 fuel factors. FPL requests that the Commission approve the reduced factors at its April 16, 2015 agenda conference, to become effective May 1, 2015.

If there are any questions regarding this transmittal, please contact me at (561) 304-5639.

Sincerely,

s/ John T. Butler  
John T. Butler

## **BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION**

In re: Fuel and Purchase Power Cost Recovery Clause with Generating Performance Incentive Factor

Docket No: 150001-EI

Filed: March 9, 2015

### **PETITION OF FLORIDA POWER & LIGHT COMPANY FOR MID-COURSE CORRECTION TO ITS FUEL ADJUSTMENT FACTORS**

Florida Power & Light Company (“FPL”) hereby petitions the Commission to approve a \$218,050,115 decrease in the amount to be recovered in 2015 through its Fuel and Purchased Power Cost Recovery (“FCR”) Clause. This midcourse correction will have the effect of decreasing the levelized FCR factor from 3.409 cents per kWh to 3.122 cents per kWh (see Appendix A, page 1), and decreasing time differentiated rates from 4.732 cents per kWh to 3.942 cents per kWh for on-peak periods and from 2.840 cents per kWh to 2.701 cents per kWh for off-peak periods (see Appendix A, page 8). The FCR factors by rate group that are being requested are provided in Appendix A, pages 8 through 9. FPL requests that the Commission consider this Petition at its April 16, 2015 Agenda Conference and, at that time, approve these new FCR factors to become effective with customer billings on May 1, 2015 (cycle day 1), and authorize FPL to continue these charges in effect until modified by subsequent Commission order. In support of this Petition, FPL states:

1. FPL is a utility subject to the jurisdiction of the Florida Public Service Commission pursuant to Chapter 366, Florida Statutes. It has principal offices located at 700 Universe Boulevard, Juno Beach, Florida 33408.
  
2. All notices, pleadings and other communications required to be served on the petitioner should be directed to:

Kenneth A. Hoffman  
Vice President - Regulatory Affairs  
Florida Power & Light Company  
215 South Monroe Street, Suite 810  
Tallahassee, FL 32301-1859

R. Wade Litchfield, Esq.

Facsimile: (561) 691-7135  
e-mail: wade.litchfield@fpl.com  
john.butler@fpl.com

3. FPL's currently authorized 2015 fuel factors were approved by the Commission in Order No. PSC-14-0701-FOF-EI, issued on December 19, 2014 in Docket No. 140001-EI. The factors are based on projected fuel costs for 2015 plus true-up amounts for 2014 and 2013.

4. FPL based its original 2015 projected cost on a forward curve as of July 28, 2014. For the midcourse calculations, FPL used a forward curve as of February 2, 2015. Since the time of the original projections, natural gas prices for 2015 have declined substantially. For example, FPL originally projected the average 2015 cost of natural gas to be \$5.13 per MMBtu (September 15, 2014 filing) whereas FPL's current estimate is \$4.60 per MMBtu, a decrease of 10.5%. The Company now projects that its current 2015 FCR factors will produce an over-recovery of approximately \$208 million by the end of the year.

5. Additionally, as filed on March 3, 2015, FPL's final true-up for 2014 is an under-recovery of \$256.5 million, or \$10.1 million lower than the actual/estimated true-

up under recovery of \$266.6 million for the same period. As a result, FPL expects to be \$218,050,115 million, or 6.5% over-recovered by the end of 2015.

6. For 2015, FPL projects its generation mix will be approximately 73 percent natural gas. Therefore, a decrease in the projected cost of natural gas for FPL can significantly decrease its fuel factors.

7. Rule 25-6.0424, Florida Administrative Code, governs petitions for mid-course corrections. Section (2) of the rule requires utilities to report over-recoveries and under-recoveries that are projected to exceed 10% of total fuel costs, but goes on to clarify that “this section in no way precludes a utility from requesting a mid-course correction prior to reaching the 10 percent threshold requiring Commission notification.” Thus, FPL is not required to report the currently projected \$218 million over-recovery or seek a mid-course correction for that over-recovery, but is expressly authorized by the rule to do so at its discretion.

8. FPL believes that it would be appropriate to reduce its FCR factors at this time to reflect the projected over-recovery. As discussed in greater detail below, if this request is approved, a typical, 1,000 kWh monthly residential customer bill would decrease \$3.00 for the period May 2015 through December 2015. While there may be actual or anticipated conditions in other situations that would make a mid-course correction for a sub-10% over-recovery inappropriate, FPL is aware of no such conditions here.

9. The projected \$218,050,115 over-recovery for 2015 is due primarily to a \$265,252,420 (7.8%) decrease in Jurisdictional Total Fuel Costs and Net Power

Transactions (page 4, line 38), a \$57,271,427 (1.7%) decrease in Jurisdictional Fuel Revenues (page 4, line 35), and \$19,716 in interest (page 4, line 40).

10. The decrease in the cost of natural gas, plus decreases in other costs, results in the \$265,252,420 decrease in Jurisdictional Total Fuel Costs and Net Power Transactions.

11. The \$57,271,427 (1.7%) decrease in Jurisdictional Fuel Revenues is primarily due to lower than originally projected sales. Billed sales for the year 2015 have been reduced as a result of lower than anticipated increases in use per customer over the last six months.

12. FPL proposes that the projected \$218,050,115 over-recovery be flowed back to customers from May 2015 through December 2015. Accordingly, FPL requests that this matter be considered at the Commission's April 16, 2015 Agenda Conference, with the revised FCR factors to become effective for the May 2015 through December 2015 billing period.

13. While the Commission typically provides for mid-course corrections to become effective at least 30 days after they have been approved in order to provide notice to customers of the changes to their FCR factors, it has allowed them to become effective sooner where appropriate. *See, e.g.,* Order No. PSC-01-0963-PCO-EI, Docket No. 010001-EI, issued April 18, 2001. In this instance, FPL is requesting that the Commission authorize FPL to begin applying the reduced FCR factors to customer bills at the start of the May 2015 billing cycle (i.e., May 1), which is less than 30 days after the April 16 Agenda Conference. FPL believes that this shorter pre-notification period is appropriate. It would not prejudice customers because their total electric rate would be

decreasing, not increasing. Putting revised FCR factors into effect on May 1, 2015 would allow customers to enjoy the benefits of reduced rates as quickly as administratively possible in the most efficient and least volatile manner.

14. A typical, 1,000-kWh monthly residential customer bill for the period May 2015 through December 2015 under this request would be \$97.12, a decrease of \$3.00 or 3.0%. The 1,000 kWh residential bill includes a base rate charge of \$54.86, an FCR charge of \$28.03, a conservation cost recovery charge of \$2.00, a capacity cost recovery charge of \$6.35, an environmental cost recovery charge of \$2.05, a storm restoration surcharge of \$1.40 and a gross receipts tax of \$2.43. See Appendix A, page 71.

15. Appendix A, pages 1-71, is attached hereto and incorporated herein by reference.

WHEREFORE, FPL requests that its leveled FCR factors be decreased to 3.122 cents per kWh for non-time differentiated rates, and 3.942 per kWh and 2.701 cents per kWh for on-peak and off-peak time differentiated rates, and that the Commission approve application of the new factors to become effective with customer billings on May 1, 2015 (cycle day 1 of May 2015) and to continue these charges in effect until modified by a

subsequent order of this Commission.

Respectfully submitted,
