April 20, 2015

Dear Mr. Lewis,

Re: Docket 140220-WU - Application for staff-assisted rate case in Polk County by Sunrise Utilities LLC.

Please find as attachment your April 7 letter with the answers.

I had many discussions with Mr. Wiley Pratt to help me to fill the information's you have requested, and I believe he has also contacted you in those matters.

I also have researched our files to be as accurate as much are possible, and still working on question No 5

I am sending this file before the due time given to us, - to expedite matters and to answer any questions you might have.

Yours truly

Leslie Szabo

Eaton Park, FL 33840-2608

STAFF'S SECOND DATA REQUEST

Re: Docket 140220-WU - Application for staff-assisted rate case in Polk County by Sunrise Utilities LLC.

Dear Mr. Szabo:

Staff has reviewed Sunrise Utilities' (Sunrise) case history and its response to Staff's First Data Request. We have some additional questions that will help aid in our evaluation of Sunrise's application. Please review the following questions and provide a response to the Commission Clerk, Office of Commission Clerk, 2540 Shumard Oak Blvd., Tallahassee, FL 32399-0850, by April 27, 2015.

1. Sunrise's response to the first data request indicated it did not have possession of system maps. Rule 25-30.125, System Maps and Records, Florida Administrative Code (F.A.C.), states: Each utility shall maintain on file at its principal office located within the State suitable maps, drawings and/or records of its system and facilities to show size, location, character, date of installation and installed cost of major items of plant and extension of facilities. Please indicate when Sunrise will have up to date system maps as required.

**Thank you for** providing us the System Maps and they are already being printed and enlarged in an up to date version

2. Rule 25-30.265, Periodic Meter Tests, F.A.C., requires each utility to inspect all of its residential meters in service at least once during during a ten-year period (see Attachment 1). Additionally, Rule 25-30.267, Record of Meter Tests, F.A.C., requires each utility to preserve the original records of all meter tests at least until same meter is performed or until the meter is retired by a later test (see Attachment 2).
  - A. Has Sunrise inspected its residential meters at least once during the past 10 years?
  - B. If so, provide copies of your meter test records.
  - C. If not, why not?

**We have only** inspected meters with questionable performance.

The one failed the test we have replaced.

We have also inspected meters for the customer's request to reassure them they are working properly and the reading was correct.

Without making any excuses that we are running the operation on a very tight budget we will implement a program to inspect all the meters within the period of 10 years to comply, when we will have a higher income.

3. Has Sunrise conducted a leak survey of its system? If so, please provide the results of the most recent leak survey. If not, why has a leak survey not been done?

**Sunrise Utilities, LLC** has not done/completed a leak survey on the above Water Utility due to the utility not owning any leak detection equipment, but Sunrise Utilities, LLC is in the process of contacting FRWA and setting up a schedule to have the whole Water System inspected for leaks.

4. In its last rate case (Docket No. 110238-WU), the Utility was granted \$1,359 to initiate a program to replace 23 customer meters per year over the next ten years.

- A. How many customer meters have been replaced to date?
- B. What was the date that the last customer meter was replaced?
- C. If no meters have been replaced, why not?

**Meters Replaced for Sunrise Utilities LLC**

**Total 34**

Route #	Name	Address	Date Replaced	New Meter #	Meter Purchased Date
3	Amber Gatlin	2484 Thompson St	3/23/2013	11652366	3/20/2013

475	Mahon Lowe	2411 Spring Way	5/14/2014	13185438	5/11/2014

The meters were replaced and installed with straight bronze with rubber washer set and ¾ FIB x FIB locking curb stop and some of them with a new meter box at an average cost including installation of \$ 115.00 each at the total cost of **\$ 4,000.00**

5. Staff's audit of Sunrise's records indicated there was a line break during the test year.

- D. Were there any other line breaks that were not reported? If so, how many?
- E. Please include the time it took to repair the line break(s).
- F. Provide the associated invoices for the repairs?

**We will** coordinate our records with the reports your department has on file within this week to provide you with the accurate answer.

Please contact me by phone at (850) 413-6578 or by e-mail at [clewis@psc.state.fl.us](mailto:clewis@psc.state.fl.us), if you have any questions.

Sincerely,

*CAL*
