OFFICE OF  
TELECOMMUNICATIONS

April 29, 2015

TO: Florida PSC Commission Clerk

From: Network Operator Services, Inc.

RE: Surrender of Authority

Network Operator Services, Inc. holds a certificate of operating authority in the state of Florida as a local telephone service provider. We have also had authority as an IXC but understand that service is no longer regulated.

Network is exiting the telecom industry and seeks to relinquish all authority in the state of Florida. Network has never provided local service and has never had any customers in the state so no consumers will be impacted.

Network believes that the company is current on all regulatory fees.
