CONSUMER COMMENTS	
Upon reading the enclosed information the question I have is based on the	
figures HC Waterworks is looking for an increase because the current	
rates are at a deficit not because of required expenses and operation	
but because the fact that once their requested profit margin on their	
investment is added it is not being met? If I am correct HC Waterworks	
purchased the Utility in the 1st Qt of 2013. I ask the commission	
to weigh their decision and consider maybe HC Waterworks overpaid	
for this investment and that the users should not be the losers	
in this by paying more for services provided.	
Thank you for your time in the consideration of this matter.
