|---|
| We reside at above address approximately 4 months a year we pay approximately \$41 monthly for months no one is there. When there, our bill runs \$60-90 monthly.   |
| In IL - we had no city water until approximately 30 years ago. New lines/meters/towers etc. were installed. We are presently paying that new infrastructure off + our bill still runs only \$35-40 per month when we are in IL. |
| When you get more than 30% more when no one is even using water + the value is shot off - I see no need for you to get a rate increase  |
