## Public Service Commission

June 10, 2015

Ms. Beth Keating  
Gunster, Yoakley & Stewart, P.A.  
215 South Monroe St., Suite 601  
Tallahassee, FL 32301

**Re: Docket No. 150151-TL, Petition for approval of implementation of 1+10-digit dialing for Walnut Hill and Molino, Florida exchanges, by Frontier Communications of the South, LLC.**

Dear Ms. Keating:

The PSC needs additional information regarding Frontier's request to implement 1+10 digit dialing for the for Walnut Hill and Molino exchanges in Florida. I have attached a data request seeking information on Frontier's proposal. Please respond to this data request by June 30, 2015.

Frontier may avail itself of the statutory confidential provisions of Section 364.183, Florida Statutes, and Rule 25-22.006, Florida Administrative Code, if it believes it is necessary to comply with this data request. Your comprehensive and timely response is vital to the Commission's effort to fulfill this statutory requirement. Please feel free to contact Catherine Beard at (850) 413-7080 or Bob Casey at (850) 413-6974 if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Beth W. Salak".

Beth W. Salak  
Director

cc: Office of Telecommunications (Casey, Beard)  
Office of General Counsel (Murphy)

- 1) In paragraph 7 of Frontier's petition, it states that:

Frontier has learned that New Cingular Wireless PSC, LLC ("NCW") recently opened the codes 251-261 in McCullough, Alabama and 850-261 in Pensacola, Florida. As such, when NCW actually begins offering customers phone numbers 261 numbers in either the 850 area code or the 251 area code, calls from Frontier customers in Walnut Hill may not properly translate.

What were the exact dates each of these codes were opened?

- 2) In Florida, 1+10 dialing has been reserved for calls which incur toll charges. Why does Frontier believe it should use 1+10 dialing instead of just 10-digit dialing?
- 3) How many carriers would be affected by Frontier's proposed changes? Please list them.
- 4) Has Frontier communicated with any of the affected carriers (including New Cingular Wireless) about Frontier's proposed changes? If so, please provide a summary of the discussion(s).
- 5) A September 26, 2014 e-mail from Frontier to Florida PSC staff indicated it was experiencing the same issue in Alabama and would be reaching out to the Alabama PSC with the same request. Has this been done? If so, what is the status of your request?
- 6) The NANPA utilization worksheet shows utilization from 87% to 97.80% for the 10 blocks of 850/261, and apparently with no complaints. Has Frontier received complaints about a code conflict? If so, how many and over what period of time?
- 7) Has Frontier altered anything recently such as EAS or ECS routes which would have caused this problem?
