Hello, I am very disappointed in your recent decision in siding with FPL. Not only will your decision increase rates for Floridians, it will also endanger our beautiful states natural resources. I am APPALLED at your decision in support of fracking. Rather than impose solar energy to this legal monopoly, you're giving them the green light to destroy our aquifers. Perhaps in the future, if the state isn't underwater, we will rename our state the Smog State instead of The Sunshine State.
