The confidential versions of these documents were not entered into the 2013 NCRC hearing record while the redacted versions were.

Consequently the confidential documents do not need to be retained.

I believe the 2013 confidential documents can be returned to FPL.

I made an error. I thought that it needed a memo but it is just an extension that was requested by FPL. I apologize.

Was something filed that caused this message to generate? I didn't see an email about any filings.
