Subject: solar power

Commissioner Graham,

New York State, Germany, many other non-Sunshine State areas support and expand solar power, this is just the latest headline - Solar Power Capacity in NY Grows 330 percent . Why not the Sunshine State?

We dither, debate and obfuscate, rather than implement! I know it is difficult when you come from the industry and it's all you know, but how about putting some public service back in the Public Service Commission. Go Solar!.

Regards, James O'Gara, Largo, FL.
