Phone Number:

Message Body: Mr. Scott please look into the FP&L purchase of Cedar Bay Power Plant located in Jacksonville, FL. This is a very shady deal in which the rate payer is assuming all the risk with the share holder making 10.5 % interest. FP&L is overpaying in the purchase of this plant to increase the shareholder return. In closing this is just a shady deal that is also another one of the "left wing" attacks on coal. Please stand with us and stop this attack on our fuel diversity on electrical power in this state. Thank you for your time and I look forward to seeing you take action to stop this madness.

Dear Mr. Allen:

The Governor's office forwarded a copy of your E-mail regarding Florida Power & Light Company (FPL) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to assist you.

You expressed concern about FPL's petition for approval of arrangement to mitigate impact of unfavorable Cedar Bay power purchase obligation. I will add your comments to the correspondence side of Docket No. 150075-EI.

If you have any questions or concerns please contact Ellen Plendl at 1-800-342-3552, or by fax at 1-800-511-0809.

Sincerely,

Rhonda L. Hicks, Chief
Bureau of Consumer Assistance
