CONSUMER COMMENTS

This rate increase - if adopted - will place a burden on me and my wife. We live on a fixed income and a rate increase of this magnitude is not in our budget and we would have a difficult time paying for the proposed increase.

Unfortunately, Sandalhaven Utilities invested in additional capacity for future growth that never materialized in the Charlotte County. This mistake in planning is on them and should not be on the backs of Charlotte County residents. In business, mistakes are made and the business that makes the mistakes suffers the consequences. Consumers should not be adversely affected by their poor business decisions.

In the future, when more developers develop the area; there will be more consumers to pay utilities, and a rate increase will not be required. Therefore, the request for increase should be denied.
