Re: Docket # 150102-SU

Dear Commissioners,

Respectfully, I ask, put yourselves in our place. Imagine being on the line to shoulder such an enormous rate hike....you, one customer of only 835? Sandalhaven is not asking for a rate hike that covers maybe 2000 or 3000 homesites. Surely, it would feel more equitable if spread across more customers. But this large of a hike for 835 customers is simply unfair. What protection do we have from this monopoly?

Has the Commission reviewed the financial and age demographics of the 835 customers? This is not Boca Grande or Naples?

Does the fairness of this rate hike consider that a significant number of customers are transient and do not use this utility a good portion of the year?

A return on investment is understandable but to "rape and pillage" those folks who had nothing to do Sandalhaven's failed business plan is just not right. Wouldn't it be a most interesting financial world if every failed investment recouped its losses on the backs of its customers?

I am asking the Commission to consider the fairness of this rate hike request as if they themselves or their parents would be affected by the outcome of Sandalhaven's request.

Thank you for your consideration,

Darlene Koszick
