

To Whom it may concern;

We are customers of K W Resort Utilities Corporation and recently received the Initial Customer Notice regarding the proposed rate hike.

We are strongly opposed to such a dramatic rate hike!

The rate hike is unreasonable. The cost of living index since 2009 is 1-2% and real wages have not kept up over this same time period. The proposed rate hike is almost an 100% (double) increase over current pricing. This would be a disporportionally harsh increase for working families struggling to make ends meet!

During this same time frame (since 2009), fuel costs...especially oil and natural gas have gone down in price. Perhaps the Florida Public Service Commission should take closer look at the management and overhead costs of K W Utilities rather than burden the customers with an unrealistic rate hike....!

This is a complaint with regard to Docket No. 150071-SU, K W Utilities Corp.

Thank you in advance for not granting such an outrageous rate hike.

Sincerely,

Steve and Amy Kehoe
