Thank you, Pam. Per this e-mail, we will leave company code off of the parties list. We will place this in Admin Correspondence for new docket 150241-PU for clarification of DN 07133-15.

Hi Pam,

I am in the process of entering the new docket you filed. In adding the utility information, I note that under TECO's company name, you have listed company code GU605, which is actually People's Gas System (PGS), and that company code has been cancelled. Do you still wish that company code to be added to the list of interested persons?
