Re: Docket No. 150166-WU - Application of Black Bear Waterworks, Inc. for Approval of Transfer of Black Bear Reserve Water Corporation's Water System in Lake County – Staff Second Data Request Revised Response

Dear Commission Clerk,

On November 10, 2015, Black Bear Waterworks, Inc. (BBWW) submitted its response to Staff's Second Data Request in the above referenced docket. However, upon further discussions with the PSC staff, it was discovered that the response to question number 2 contained incorrect dates. Please find the revised corrected response.

2. In Table 1, for all the accounts, 11.5 years was used as the age of the system, instead of 11 years.

Response: From reviewing Document No. 02287-10, filed in Docket No. 100085-WU, it appears the facilities were installed in 1998. There was a letter from the Florida Department of Environmental Protection (FDEP) dated August 1998 and September 1998 concerning the construction permits. In addition, there is a letter dated November 15, 1998 concerning the installation of the water lines in the spring of 1989. The design drawings have a date of March 2, 1998 and the as built drawings have a date of November 1998. It appears that 11.5 years was chosen to take into account that the water facilities were installed sometime in 1998. Since the letters from FDEP appear to be dated in the second half of 1998, it is reasonable to utilize 11.25 years instead of either 11 or 11.5 years.

Respectfully Submitted,

Troy Rendell
Manager of Regulated Utilities
