Subject: FP&L Increases...AGAIN?????

To Whom It May Concern:

I hear that our FP&L rates will possibly be increasing yet again. This is disgusting. I kept hearing that they were building better facilities to help when storms hit...that was years ago, after Wilma. Then I hear we are going to get a "decrease" in our bill – **when?** Never see it. All I ever see is increase, after increase, after increase.

I truly think Florida needs a couple more power companies to compete with FP&L, then maybe we as the consumers would have a better chance of getting the better deal.

I surely hope you put a hold on any increases for a long time on FP&L...people will have to leave the state because our paychecks are NOT going up as fast as FP&L is raising our bills.

Respectfully,

Laurie J. Bodine
Pembroke Pines, FL
