Re: Docket #150230

To Whom It May Concern,

We have resided at the above address for over 25 years. During that time we have seen the streets paved, street lights installed and mail boxes relocated to our residences instead of a community box. These accomplishments have been done through a concerted effort by the residents and the cooperation of our local officials.

In recent months we have endeavored to obtain a safer source of water. As you are aware water issues in the past few years have become more numerous and while ours may not be unique we are trying hard to manage and deal with them.

We have been unable to obtain a working agreement with Seminole County but with their permission have pursued and obtained an agreement with Utilities Inc.

It is my understanding that one of the last remaining hurdles is for the Florida Public Service Commission to approve docket #150230 which will transfer the Myrtle Lake Hills service area from Seminole County to Utilities Inc.

We ask that you grant our request for transfer as expediently as possible. We ask for ourselves and for future residents. Not only will it provide a better, more reliable source of water but will increase our health and wellbeing now and in the future.

Thank you for your consideration.

Regards,
Roy and Wendy Gatewood
