Subject: D ocket #160021-EI

Dear Sirs:

How can you say you are “doing the people’s business with an impartial and unbiased conclusion when ALL of the requested rate increases have been passed with no exception-You all may well go work for FPL as you have been their benefactor. They bare guaranteed a certain rate of return and they legally are not entitled to more under the rules of the legislature-Nothing this company has done has been above board Including their lying about me ordering a

Smart meter and trying to deliver it under the conditions of absolute fraud- furthermore your organization has never had these meters tested for a term certain to determine if their were any “side effects” of their radio waves

As such this Commission has utterly failed to serve the public and should not be called “ The Public service commission”

M. Farrow
