Subject: Indian River Shores Residents

Dear Commissioners:

My wife and I own 183 Silver Moss Drive in John's Island and are sending you this email to raise our concerns about the cost of our electrical power which is provided by Vero Beach Utilities.

We do not understand why the monopoly that has been allowed to continue in favor of VBU causes us to pay substantially more for our electricity than the same service that could be provided by FPL?

When there is no competition, as current circumstances exist, 99.999% of the time it is the consumer who gets harmed. Why is this being allowed to continue and why does the Public Service Commission ignore its fiduciary responsibility to all of its constituents?

It is also time for the residents of Indian River Shores to have representation before the PSC so that our voices can be heard.

Thank you for taking the time to consider this email.

Steven B. Caruso
