Subject: Please allow Indian River Shores to get power from FPL

Dear Commissioner Brown,

We are owners of a home in John's Island. Climate change is a very real issue to us, and we have solar power on our main home in Virginia. I would love to be able to be a customer of Florida Power and Light, because they have an enviable record of adding renewable energy to their portfolio, and are one of the leading utilities in the country as far as solar. Please allow our neighborhood to be serviced by Florida Power and Light rather than Vero Beach Electric.

Thank you,
Ruth McElroy
