

5.5.2016

To: the Florida Public Service Commission
From: Tammy Bowen^{MEDLEY}, Residential Electric Customer (FPL)
@ 16 Coquina Ave, St. Augustine, FL 32080 (904) 994-0250
* RE: Docket No. 160021-E1 *

To whom it may concern,

* I oppose the proposed increases to the monthly bills of all Floridians who use FPL services. *

RECEIVED-FPSC
2016 MAY -9 AM 11:44
COMMISSION
CLERK

These proposed increases are burdensome to many, many Floridians who have low incomes or who are on low fixed-incomes.

Though the increases may seem small to people with higher income levels, they will be difficult for many, many Floridians to pay. This will put a strain on many household's budgets to the point they may have to decide which to cut out - part of their grocery bill, or their air conditioning. This will put some people at risk of food insecurity, when the government has already lowered the amount of food stamp payments. In our hot Florida climate, this will put some people at health risk concerning over-heating - which causes many deaths each year, and will increase with climate change. Infants & elderly will be especially at-risk - two groups who are also commonly on tight budgets already.

Additionally,.....

* RE: Docket No. 160021-E1 *

* I oppose the increase to the monthly bills and all other charge increases ~~to~~ ~~to~~ ~~of~~ all to all Floridians who use ~~FPL~~ FPL Services. *

FPL is constantly sending out pamphlets which show all the changes they have made to the way energy is produced and delivered - all the advancements they have made with technology. They are constantly telling the consumer how these changes have reduced their costs, and therefore they have passed the savings on to the consumer.

- Now, they are recanting that by basically stating they no longer want to pass these savings on to the consumer. Instead, they want to raise the consumer's rates and fees - even though they have automated many, many tasks, reducing jobs, and shutting offices.

* I OPPOSE THE PROPOSED RATES & FEES INCREASES !!

Thank you. Sincerely,
Tammy Bowen Medley
