Subject: Concern about FP&L's Rate increase request, PSC docket # 160021

Dear Commissioner,

I'm writing you as a FP&L customer and a florida residence regards to FP&L's Rate increase request, PSC docket # 160021 to not approve the requested rate increase, reason being is that FP&L clearly by its own advertisement is declaring that it doesn't need the increase.

If rate increase is considered and approved it should be required that ALL new power plant to be Sun, Wind or Water (wave) since this is a free gift from nature and when the infrastructure is paid for there should be a rate decrease.

Thanks for your consideration

Peter Hjalmeby
