Re: docket 160021-E1

To whom it may concern,

I really can't believe you would approve a 23% increase for FPL, especially since they got all that money for building a new plant that never got built, and they kept the money!!!! I am 66 and still work full time and my money is getting stretched thinner and thinner. They are looking for more money to do what? They are making a huge profit as it is and let me tell you, this is a monopoly- I can't get my power from anyone else!!! I already unplug everything I'm not using and I turn my A/C up to 80 when I'm not there to save energy. This is absolutely ridiculous, it has to stop! They just spent several months replacing poles along the road I live on, Fruitville Road, replaced wood with wood, why not concrete poles that last forever. All the men and equipment had to cost plenty, in another 10 years they will have to do it again. Wasteful!!!

Thank you
