Subject: FPL rate increases

Good morning,

Having recently retired to Florida we are concerned about the proposed rate increases. We selected Florida for two primary reasons; weather and cost-of-living. Retirees make up a third of your population and are a tremendous boost to your economy since they are not sending kids to schools, etc.. While many retirees are affluent, we are not. A 23% increase in utility costs would have negatively influenced our decision to choose Florida as our permanent residence.

Thank you for listening.
