Please educate me how a company that is in existence to serve and service, can request a 23% increase just to pay it's investors.

Their shouldn't be investors, your a public service company, let them take the good with the bad like we have to do with our retirements that going no where financially.

By the way, what is the yearly income of the chief honcho for F P L.

Live within your means like we have to, we couldn't even get a cost of living raise as retired on our Social Security, while the people that voted it down gave themselves raises, NO INCREASES FOR F P L.
