Subject: FPL rate hike

At the present time our bill each month is about \$200.00. My husband and I are both senior citizens and on a fixed income. As you know we did not even receive an increase in our social security this year, but our medicare went up. So we are going backwards. There are many senior citizens living here in Florida, and most of us are living day to day, hoping nothing breaks down as we can not afford it. To tack on such a hike in electricity would really hurt all of us, especially to give out more profits to your investors. This is an unwise decision during such economic times.

Please reconsider this,
Mrs. Elizabeth Kratz
