Docket # 160021-E1

There is no need for FPL's requested rate increase .

They're asking for money to resolve – to get more profit for people that are out – for their shareholders that are out of state. Now we have seniors that cannot afford to buy their medication, and now with this rate increase and everything else, as everyone has spoken about, that will – it's not only a 23 percent, everything that comes with it that they're going to have to pay for, they may have to – they may have to serve – they may have to not eat to be able to pay for their bills.

Dear Loren,

FPL Rate Hike Not Needed to Serve You, It's About Corporate Profit

You Still Have Time to Take Action!

Throughout June, AARP Florida attended nine statewide Public Service Commission (PSC) hearings to refute Florida Power & Light's (FPL) request for a \$1.34 billion increase in base rates. Know these two facts about FPL's request:

1. \$960 million of FPL's rate increase will go into FPL investors' pockets. None of those funds will go to service enhancements, disaster preparedness, or energy innovation.
2. According to their own filing with the PSC, FPL is on target to make \$1.6B in profit in 2017 without the requested rate increase.

This is a complex request that would require you – the consumer – to pay monthly increases to the only power provider available to you. FPL's request equals a 23 percent base rate increase for all residential ratepayers (this is a charge increase even before you flip on a switch,) and would allow an unprecedented return on equity (shareholder profit) of 11.5 to 12.5 percent.

You still have time to have your voice heard and make a difference before the final hearing in Tallahassee starting on Aug. 22. FPL residential customers who were unable to attend one of the public hearings in person can submit their testimony either one of two ways:

- 1) email your testimony to the Public Service Commission Clerk at clerk@psc.state.fl.us

Before they Raise
your Rates!**

2) mail a paper copy of your testimony to:
