This docket #160021-E1 appears to be much too expensive for the people of Florida ... especially the elderly. knowing that you see the economy and job growth helping people, this increase would be permanent for all of us. Please consider what might happen when the economy turns sour \ again. Will they drop their rates? No guaranty for anything these days, and people are still struggling from the last downturn.

Please consider these situations closely and we hope you will see that a raise this large is not merited at this time.

Thank you for your time in reading this.

Sincerely,

Hank and Janis Castonguay
