Subject: NO to FPL rate increase!!!!

I believe FPL's rate hike should be rejected. FPL is earning profits at the top end of the rate allowed under the current agreement with the state. The rate increase is basically to reward its shareholders with higher profits. Really? Higher profits? Greed is what it is! Meanwhile our seniors are struggling to pay for their medications, food, necessities and housing. FPL's fight to keep a constitutional amendment off the November ballot that would have opened the door to a competitive solar market in Florida is indication they're too big!

In no way should the rate increase be approved!
