Subject: docket number 160021-E1 Florida Power and Light rate increase

Public Service Commission Clerk:

I object to FPL (aka Florida Pillage and Loot) request for an increase.

I have no choice regarding my provider of electricity.
I have no ability to negotiate the rate I pay.

This utility actively lobbies members of the Florida Legislature. This utility has convinced members of this same legislature to put forth a state question on the November 2016 ballot for the ability or lack thereof for users to procure solar power to remain the same rather than provide real options for users to obtain power from the state's best known source of renewable power, the sun.

Additionally, this utility regularly wastes its profits advertising to its users how low their rates are.

When the choice is a single provider, advertising its services is unnecessary and wasteful.

Please consider declining this request for a rate increase and serve the needs of the consuming public first!!!

Thank You!
