**Subject:** FPL RATE INCREASE NOT NEEDED

FPL's request equals a 23 percent base rate increase for all residential ratepayers (this is a charge increase even before you flip on a switch,)! It would allow an unprecedented return for shareholder profit) and hurt most elderly and hard pressed families.

1. None of those funds will go to service enhancements, disaster preparedness, or energy innovation.
2. According to their own filing with the PSC, FPL is on target to make \$1.6B in profit in 2017 without the requested rate increase. That is enough!

All additional profit is slated to give another \$960 million to the investors.. The greedy investors will get this on the backs of the people that can least afford it!

Thank you,

Billy Jo Stein
