Subject: Docket # 160021-E1

Another rate hike for FPL customers could mean some very difficult choices for our older population. Many already have seen an increase in healthcare costs and we know the cost of living has been steadily increasing. Please don't make it necessary for them to choose between buying food and needed medicine or paying for utilities. Our elderly population have contributed so much to our society and are very proud of having been such hard workers. How unfortunate that we no longer care for or consider their needs. It is shameful.

FPL has a monopoly in the Manatee County area where I live. We have no choice in the matter, we either have them provide our power or we have no power. The decision for no new rate hikes should be obvious. I do not see where it would benefit the customer.

Thank you,  
Annette Webber
