Good morning Ms. Miracle,

We will be placing your comments below in consumer correspondence in Docket No. 160021-E1 and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Ashley Quick
Commission Deputy Clerk I
Florida Public Service Commission

Stop the proposed FPL rate increase!

FPL already decreased the amount they pay for the voluntary program to cut power from our homes when the demand is too great.

It was reduced so much that it isn't even worth staying in the program. This saving for FPL must = instant increased profits already for FPL.

We have many seniors and working families in our area who cannot increase their income just to cover increased profits for a monopoly!!

Profit is not a dirty word - - but it also is not an automatic entitlement!!

As Florida *Public Service* Commission, your job is to look out for the public, not big business!

Sincerely,
Jana
